**Project Goal/Outcome:** Develop plan and procedures for the home delivery of antibiotics during a public health emergency.

### Socio-Economic, Political and Cultural Context

- **a.** Current mass dispensing plan proven not viable
- **b.** As follows:
  - Resource availability: staff, equipment, etc.
  - Vulnerable populations
- **+** Partnerships available through the Summit County Domestic Preparedness Steering Committee
- **+** Best Practice available for Home Delivery Model

### Stakeholders

- All Fire
- All Law Enforcement
- City of Akron Police Department
- Summit County Public Works
- Summit County Public Health
- All Three Hospital Systems
- Summit County Emergency Management
- Red Cross
- Non-Profit Organizations
- Summit County Citizen's Corps
- Elected Officials
- All Schools
- ACME
- Local Businesses
- Summit County Geographical Information Systems
- Post Offices Serving Summit County
- Summit County Educational Service Center

### Rationale

- **a.** Life preservation; medical surge
- **b.** Defined gaps with the current delivery plan; evidence purports process is unattainable
- **c.** Availability of resources through already established cross-sector collaboration

### Pathway to Change/ Key Activities

- Refine current Mass Dispensing Plan to encompass the home delivery model.
- Develop policies to support the adaptation of the home delivery model.
- Reinforce the working relationship with the members of the Summit County Domestic Preparedness Steering Committee to obtain support for this endeavor.
- Research and determine feasibility of home delivery model
- Identify roles, responsibilities and available resource of stakeholders.

### Stakeholders

- **Output and Process Indicators**
  - By December 2013:
    - Determine the feasibility of utilizing home delivery model in Summit County, Ohio.
    - Develop outline of home delivery model plan.

- **Outcome Indicators:**
  - By December 2014:
    - Develop a home delivery plan for the delivery of countermeasures to the residents of Summit County, Ohio.

### Leadership Learning Priorities

- Evaluate personal understanding of our own leadership capabilities and identify improvement needs.
- Learn practical leadership skills to manage teams from any dimension/discipline.
- Develop skills to earn the full support and collaboration of community partners and engage them in emergency preparedness.
